Consumer Products:

Identity

Identity *Plus*

Identity *Premium*

Why do you need digital risk protection?

- We live in the era of Digital Transformation.
- Digital Transformation & Digital Risk go hand-in-hand.
- Increased Digital Footprint: social media platforms, online banking, e-com, utilities management, etc.
- Larger Digital Footprint = Larger Public Attack Surface
- Categories of Risk:
 - Theft of personal information like credit card & bank account nr's
 - Hacking or hijacking of social media accounts
 - Loss of funds due to scams, malware, phishing attacks
 - Cyber & physical threats to you & your family
 - Risks to other unique digital assets like your Crypto Wallets or Gamer Handle

Digital risk protection services

Identity:

01

The Deep & Dark Web harbor a massive source of data content and communication that often goes undetected and untraced. Traditional search engines offer no visibility into these channels, making them a prime market for bad actors looking to share or sell proprietary or personal information.

02

Deep & Dark Web Monitoring safeguards your personal information against data leakage, breaches, and the illegal selling of data on a broad range of deep and dark web sites, forums and chatrooms including TOR, I2P, ZeroNet, Paste Sites and more...

03

Receive alerts if any of your personal information or credentials are detected in any global data breaches or monitor other unique personal assets like your Crypto Wallet or Gamer Handle and receive alerts on any indicators of compromise.

04

Digimune alerts on sensitive information including:

- E-Mail Address
- Credit Card information
- Identity / SSN
- Social Insurance number
- Medical ID number
- Passport number
- Phone number
- Bank Account number
- Date of Birth
- Address

Identity *Plus*

01

Your social media pages are your personal digital property.

02

Cybercriminals are continuously trying to take over or hack your social media account to scam your friends and connections.

03

Advanced Protection of your social media accounts is a must have in the digital age we live in.

04

Digimune Identity PLUS includes all Digimune Identity Protection features PLUS...

05

Protection for your social media accounts on Facebook, Instagram, LinkedIn, Twitter, and YouTube.

06

Digimune offers out-of-the box rules that provide Advanced Account Take Over Protection

07

The platform will alert you on any potential indicators of compromise.

08

If any indicators of compromise are detected, you will be able to Lock any of your owned accounts or Block any criminal actors

Identity *Premium*

01

The increasing popularity of social media platforms has many consequences for our lives.

02

One of them being that cybercriminals exploit it to try and scam people into providing their money or personal details. One of the ways this is done is through social media impersonation.

03

There is a huge increase in the publishing of sensitive and personal information on public and social media platforms. Also known as Doxxing

04

Identity PREMIUM includes all Identity PLUS features, plus Advanced Social Media Protection features like Social Media Impersonation and Doxxing Protection

05

Digimune will provide alerts for any potential impersonating social media accounts that are found

06

Doxxing Protection monitors and alerts on the publishing of sensitive and personal information such as name, address, workplace, phone number, or other personal identifying information.

07

Identity PREMIUM allows you to request takedowns of impersonating social media accounts and threat actors targeting you that are in breach of the network's terms of service
